Post-Secondary Qualifications

2022   **Full Stack Web Development**
Rework Academy, Abuja, Nigeria.

2019   **BSc. Biochemistry**
Kogi State University, Anyigba. Nigeria

Professional Experience

- 2022 – Date
  Full Stack Engineer (Hybrid)
  Rework Technologies, Abuja, Nigeria
  Key Duties
  - Planning, designing, and implementing user interface systems for websites, software, and web-based applications with HTML, CSS/SASS, JavaScript, Typescript, jQuery, Node.JS and React. JS.
  - Directing the creation of the backend systems with a focus on speed and size
  - Collaborating with other engineers to provide the appropriate API endpoints for front-end integrations.
  - Tweaking and reviewing updates to systems that have already been built to improve speed, reduce space consumption, and cut production costs.
  - Engagement and leadership in all aspects of agile software development, including design, production, and deployment
  - Using Node JS to design, code, and build microservices and web applications.
  - Developing and maintaining the server side of web applications (building and integrating REST APIs)
  - Performing web techniques and managing the workflow and deadlines of numerous, concurrent projects while following the supervisor's priority-setting instructions
  - Offering assistance and mentoring to students at the Rework Academy.
  - Additional duties as delegated by the unit manager or supervisor

- 2021 – 2022
Data Personnel (Part-time);
Cohort Event Monitoring for Safety Signal Detection, after Vaccination With COVID-19 Vaccines and Post Market Monitoring in Nigeria.
Maryland Global Initiatives Corporation/National Agency for Food and Drug Administration and Control/University of Maryland, Baltimore/USCDC
Key Duties
  - Gathering, organizing, and analyzing research data to develop Nigeria's COVID-19 vaccination safety profile.
  - Assisting the software development team with building, testing, and deploying the research web application.
  - Software testing and bug reports

- 2019 – 2022
Front-End Engineer
Ywala Technologies, Jos, Nigeria (Remote)
Key Duties
  - Utilizing HTML, CSS, JavaScript, and jQuery to develop responsive production-ready user interfaces across all devices.
  - Working with a diverse team that includes architecture, investigation, product development, and engineering to ship products that satisfy both the demands of users and the goals of our current clients.
  - Planning, designing, and implementing user interface systems for websites, software, and web-based applications
  - Working with backend engineers to create and incorporate necessary REST APIs into projects' front ends

Skills and Competences

- Front-end development with HTML, CSS/SASS, JavaScript, Typescript, jQuery, React.js, Node.js
- Backend development with Node.JS
- REST API development and integration
- Database creation, management, and optimization
- Teamwork and collaborations through git flow, Trello, and CodeSandbox
- Excellent communication and relational skills
- Critical thinking and effective problem analysis
- Research.
